Professional Summary

Full Stack Developer with 2.5+ years of experience in developing modern web applications using Angular, MEAN, and MERN stack technologies. Skilled in building responsive and user-friendly interfaces with HTML, CSS, Tailwind CSS, Bootstrap, and TypeScript. Experienced in working with GraphQL, Hasura, and REST APIs to develop scalable applications. Strong understanding of UI development, performance optimization, and cross-browser compatibility. A collaborative team player with a passion for learning new technologies and delivering high-quality solutions.

Technical Skills

- Languages & Frameworks: HTML5, CSS3, JavaScript, TypeScript, React.js, Angular, Node.js
- UI/UX Tools: Figma, Bootstrap, Tailwind CSS
- Version Control: Git, GitHub
- Database & APIs: SQL, Hasura (GraphQL), REST APIs
- Testing & Debugging: Chrome DevTools, Postman
- Other Tools: VS Code.

Work Experience

Dentalsuite360 | Oct - 2024 - present

Nandalala Infotech

- Built and maintained scalable front-end components using Angular and Tailwind CSS for a clinical SaaS platform.
- Designed responsive UIs and optimized layouts for cross-device usability.
- Integrated GraphQL APIs with Hasura to ensure smooth data flow.
- Developed reusable components, improving development efficiency by 30%.
- Collaborated with back-end and design teams for alignment with UI/UX principles.

Arches CRM | SKAD IT Solutions | Sep - 2025

Nandalala Infotech

Technologies: React.js, TanStack Query, JavaScript, Tailwind CSS

- Developed dynamic and responsive CRM modules using React.js and Tailwind CSS.
- Implemented TanStack Query for efficient server-state management and API data caching.
- Created reusable UI components to improve maintainability and consistency across the application.
- Worked closely with stakeholders to translate business requirements into intuitive user interfaces.
- Improved application performance through optimized component rendering and API handling.

System Two Security | July - 2024

Nandalala Infotech

- Created a secure user management module with role-based UI states.
- Developed an intuitive real-time chat interface for better communication.

- Ensured pixel-perfect implementation of UI mockups and improved performance metrics.
- Supported development of a customer support portal interface.
- Enhanced responsiveness and improved UI components using Tailwind and Bootstrap

Invoice Management System | March - 2024

Nandalala Infotech

Technologies: React.js, MongoDB, Python, Tailwind CSS

- Developed a web-based invoice management application for tracking and processing invoices.
- Built responsive user interfaces using React.js and Tailwind CSS.
- Designed backend services using Python for invoice processing and business logic.
- Integrated MongoDB for efficient storage and retrieval of invoice data.
- Implemented CRUD operations, reporting features, and validation mechanisms.
- Improved data accuracy and streamlined invoice management workflows.
