

CHRISTOPHER FELIX

Full Stack Developer | Node.js | React.js | Angular | GraphQL | Hasura | MongoDB | SQL

Trichy, Tamil Nadu, India | +91 8668105304 | christpherit@gmail.com | linkedin.com/in/christopher-felix-396a7125b | github.com/christpherit | christopherfelix-portfolio.netlify.app

PROFESSIONAL SUMMARY

Full Stack Developer with 2.8 years of experience designing, building, and shipping production web applications across the **MERN** and **MEAN** stacks. Hands-on expertise in **Node.js**, **NestJS**, **Express.js**, **React.js**, and **Angular**, with strong, production-level experience designing and integrating **GraphQL** APIs using **Hasura**, writing **SQL** queries, and working with **MongoDB** for data storage and retrieval. Proven track record building reusable component libraries, implementing **role-based access control (RBAC)**, and optimizing REST/GraphQL API performance, and owning features end-to-end across frontend and backend for SaaS and CRM platforms — following the full **SDLC** within **Agile/Scrum** sprint-based delivery cycles. Actively seeking Full Stack / MERN Stack / MEAN Stack / Node.js / GraphQL developer roles.

CORE TECHNICAL SKILLS

Full Stack Development: MERN Stack, MEAN Stack, REST API Design, GraphQL API Design, Microservices basics

Backend: Node.js, NestJS, Express.js, GraphQL, Hasura, RESTful APIs, Python (basic)

Frontend: React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Database & Query Languages: MongoDB, SQL, GraphQL, Hasura

State Management & Data Fetching: TanStack Query, Redux basics

Tools & Platforms: Git, GitHub, Postman, Chrome DevTools, Figma, VS Code

Core Concepts: API Integration, Component Architecture, Role-Based Access Control (RBAC), SDLC, Agile/Scrum, Sprint-Based Delivery, Real-Time Data Flow, Performance Optimization, CRUD Operations

PROFESSIONAL EXPERIENCE

Full Stack Developer — Nandalala Infotech, Trichy

Mar 2024 – Present

Delivered full-stack features across multiple internal client projects spanning SaaS, CRM, security, and internal tooling, using Node.js, NestJS, GraphQL, Hasura, React.js, Angular, and MongoDB — owning both frontend architecture and backend/API integration, following **Agile/Scrum** practices and delivering work sprint by sprint across the full **SDLC**.

Dentalsuite360 — Multi-Tenant Clinical SaaS Platform

- Worked as a full-stack developer building responsive frontend components with **Angular**, HTML5, and CSS3, and backend services with **Node.js** and **NestJS**.
- Designed and integrated **GraphQL** APIs using **Hasura** to enable smooth, real-time data flow between UI and backend.
- Built a reusable component library that cut new-feature development time by 30%.
- Implemented **role-based access control (RBAC)** to manage permissions and workflows across **Professional**, **Practice**, and **Supplier** user roles within the platform.

Arches CRM

- Developed dynamic, responsive CRM modules using **React.js**, **TanStack Query**, and Tailwind CSS.
- Implemented efficient server-state management and API caching with TanStack Query, reducing redundant network calls.
- Created a shared UI component set to improve maintainability and consistency across the application.

System Two Security

- Built a secure user management module with role-based UI states and access control.
- Developed a real-time chat interface for internal team communication and supported a customer support portal interface.

Invoice Management System

- Built a full-stack invoice management application end-to-end: React.js/Tailwind CSS frontend, **Python** backend services for business logic, and **MongoDB** for data storage.
- Implemented CRUD operations, reporting features, and input validation using **SQL**-based data queries, improving data accuracy across the workflow.
- Implemented **role-based access control (RBAC)** to separate **Admin** and **User** permissions across invoice creation, approval, and reporting workflows.

Associate Java Developer — QR Solutions (Contract)

Mar 2023 – Jun 2023

Angular UI development for ModernStar.com (Australia-based client)

- Built and updated **Angular** UI components based on assigned tickets, including banner and content updates.

- Delivered UI fixes and enhancements on a ticket-driven workflow within a distributed client team.

PROJECTS

Personal Portfolio — christopherfelix-portfolio.netlify.app

React.js, Node.js

- Designed and built a personal portfolio site with a **React.js** frontend and a **Node.js** backend to showcase full-stack projects, skills, and work experience.
- Implemented a responsive, recruiter-friendly layout deployed on Netlify to support active job applications.

EDUCATION

B.E. Mechanical Engineering — K. Ramakrishnan College of Engineering (2015 – 2019)

Higher Secondary School — AKKV Aarunadu Matric Higher Sec School (2013 – 2015)

LANGUAGES

English (Fluent) • Tamil (Native)
